

NEW ONLINE TRAINING

Your research can change lives: don't let an emergency disrupt your progress!

The University of Maryland, Baltimore (UMB) Office of Emergency Management's Continuity of Operations (COOP) eLearning Tool helps you prepare for the unexpected before an emergency.

This online training will help you:

- Identify essential functions and people
- Locate alternate spaces and resources if you need to relocate
- Protect your research data

Take a few minutes this month to complete the COOP eLearning Tool and create (or update) your continuity plan. Your future self (and your research) will thank you!
